

Spirit Unlimited Summer 2004 Newsletter

Greetings,

With the ever-loving help of Spirit, this spring/summer is proving to be a wonderful opportunity for us to continue to heal ourselves of old wounds and to cleanse and purify our egos in constant surrender to Spirit. Each one of us faces challenges of Spirit whether are in the area of health, relationships, work or finances or some combination. This is how we are getting to know the strength and resources inside of ourselves. Healing breakthroughs are happening for those who are doing their inner work in the area of love, business, money and real estate. This will continue under the influence of the June 8 transit of Venus when the Sun (Purpose, Will, masculine) shone through Venus (feminine, love, beauty, money and real estate) to Earth. The effects will continue to be felt over the summer. This Venus transit will open a gateway to accelerated collective human consciousness including telepathic communications, developing psychic and intuitive abilities in Spirit.

If you do not know your life purpose, vision, values and plan for work there is no better time to discover them and put them into action than in the upcoming months. And here is no better time to help support your life and work by discovering and applying your psychic and intuitive abilities. Spirit Unlimited has some great summer programmes lined up in Calgary, Vernon, Kelowna and Bowen Island to help support you and your children unfold your lives with grace and ease. Continue to walk your path of purpose in inspiration, love, peace, trust, faith and knowing the love of Spirit for you, your parents and ancestors, your children, grandchildren and the generations to come.

Spirituality at Work

Spirituality at work continues to be a hot topic in the business and training world. Training Magazine featured an article (April 2004) on spirituality at work entitled "Taboo No More". In it, corporate coaches and authors such as Larry Julian "God is my CEO" and Ellen Hayakawa, "The Inspired Organization: Spirituality and Energy at Work" and CEO's such as S. Truett Cathy, CEO of the third-largest fast food chicken restaurant in the US as well as other leaders discuss why spirituality at work is such an important and timely topic of discussion and application at work.

On June 8, at the Cracker Barrel presentations at the Vancouver chapter of the International Society for Performance www.ispi.org Ellen gave a presentation describing the relationship between performance and performance improvement and spirituality for human resource practitioners, directors of training with companies such as Telus, the International Order of Foresters, and AMEC.

The Children and Youth of Peace

Work with the children and youth of peace (sometimes called spiritually-gifted, psychic, indigo, crystal and star children) is continuing to grow. This is accelerating this summer with many youth in their 20's purposefully setting out to do the mission that they know that they came here for – everything from the spread of new mathematical formulae describing ether, light and space to facilitating workshops on energy and healing for children. These are very exciting times and many of us are here to support these youth and children in bringing their knowledge and endeavours to the planet. Again as was emphasized in the last newsletter, if you are an adult it is

important for you to be clear on your life's purpose and vision of work....that may very well have to do with supporting the children.

Resources for the Children and Youth of Peace and their Mentors

The Second Annual Conference on Children's Spirituality sponsored by the Institute of Noetic Sciences and the Child-Spirit Institute, Oct. 7-10, Pacific Grove California.

Moving Through Your Shadow

Applying Your Intuition@Work

The Shaman's Drum

Products: Book - The Inspired Organization: Spirituality and Energy at Work

Deeply authentic and straight from the soul, The Inspired Organization: Spirituality and Energy at Work combines heart and wisdom with practical useable ideas. It opens enormous possibilities for a new way of being at work."

Martin Rutte – Co-author, Chicken Soup for the Soul at Work

“Today, many may ask, “What is my work?” and “What am I building through my labours?” There are few more critical development needs in the modern world than aligning the two and few more useful starting points than Ellen Hayakawa’s book.”

Dr. Peter Senge- Author of The Fifth Discipline, Founder of the Society for Organizational Learning, MIT
